Summary

I'm a software engineering student who loves writing code , soaking up as much knowledge and practice as I can in an attempt to perfect my craft.

I'm currently working on projects that uses MongoDB , ExpressJS, ReactJS, NodeJS, Docker and Kubernetes.

My specialties include quickly learning new skills and programming languages , problem solving , website optimization and responsive design principles. So far I have HTML , CSS , JavaScript , Bootstrap , C++ , ReactJS , Linux , Docker , Kubernetes and GitHub under my belt. I've started learning Node.JS , MongoDB and Express.JS. I'm still enthusiastically grabbing onto any other programming language or framework I can integrate into the coding web in my head.

Experience

Summer Intern

NexusBerry

May 2020 - Present (5 months +)

Education

Ghulam Ishaq Khan Institute of Engineering Sciences and Technology

Bachelor's degree, Computer Science

2019 - 2023

Skills

Kubernetes • Docker • React.js • Problem Solving • Cloud-Native Applications • GitHub • HTML5 • Cascading Style Sheets (CSS) • JavaScript
